

# The Ascendancy of the Scientific Dictatorship: An Examination of Epistemic Autocracy, From the 19th to the 21st Century

A. In the past, the elite manipulated the population through a more mystical belief system. In particular, there was the institution of Sun worship (typified by deities such as Osiris and Set). However, as antiquity gave way to modern history, this system of control began to lose its effectiveness. During the sixteenth century, the ruling class managed to co-opt a relatively new methodology of truth discernment science. Over the years, they would contaminate this institution with their own virulent strains of thought metaphysical naturalism, radical empiricism, Malthusianism, Darwinism, behaviorism, radical environmentalism, etc. Many of these paradigms were derivative of their own occult doctrines, thinly veiled to appear as objective science.
