

The Creative Process in the Individual

This is considered by many Trowards masterpiece. It embodies his maturest thought, chapter 1-10 amounting to a textbook of his teaching. The Creative Process begins with the Cosmic process and eventuates in the individuals use of Mind to further the process. FROM THE PUBLISHER: This DeVorss edition takes the liberty of helping the reader by (1) introducing paragraphing, as Trowards paragraphs are exceedingly long; (2) introducing punctuation to ease the reading and (3) closing up some words that in Trowards day were hyphenated. Also footnotes have been added to help in the translation of many foreign terms and phrases. Finally, several errors that have disserved this work for almost a century have at last been dealt with.
