

The Crystal Point of the MOG POGS (The MOG POG Saga Book 1)

Move over Harry and Percy, theres a new kid in town. Or, more precisely, out of town. Hes eleven year old Meriwether Lewis Bowman, but hed prefer it if you just call him Lew. He lives with his parents in the volcanic wilds of the Mt. Lassen area of northern California. With his Grandpa, whos six feet five and looks like an NFL linebacker, Lew finds that the wilds are much wilder than he could ever have imagined. Its a place where legendary beings like were bears and chupacabras do exist and theyre struggling for control of the natural world. Lew didnt want any part of their ancient fight, but now hes at the very center of it. His got only his wits, his best friends, the Gift, and the MOG POGs to help him battle some of the most powerful forces on earth. But then, its like his Grandpa says, Life is full of surprises, and they arent all good. Sometimes you just have to make the best of things. This is the first novel by Don Cambou, who for a dozen years Executive Produced Modern Marvels for the History Channel. Its also the first novel of The MOG POG Saga. Cambou has turned his talent from nonfiction to this work of rich fantasy. Although its written for Middle Grade readers, few lovers of the genre will be able to resist the action packed, page turning, nail biting, ecological adventure he has created. The second novel, The Treasure of the Carpathian Den will be available in Spring of 2012.
