

The Durham Collectar (Henry Bradshaw Society)

Few liturgical historians are aware that a book of collects for the Divine Office formed part of the service-books owned by a monk or priest in Anglo-Saxon England. The Durham Collectar, misnamed the Durham Ritual and tentatively dated to the tenth century, is the earliest collectar to have survived in England. Where did it come from, and how was it used? To answer the first, a new edition of the Latin text is presented in this volume, with extensive collation tables showing at a glance the most influential liturgical sources. In the introduction, the function of the collectar is discussed.
