

Experience in the Re-Education of Disabled Soldiers in Great Britain (Classic Reprint)

Excerpt from Experience in the Re-Education of Disabled Soldiers in Great Britain

In working out plans for re-education of the disabled in the United States, there is available no more valid example than the experience of our British comrades in the rehabilitation of disabled soldiers. Conditions in Great Britain are more nearly comparable to our own, than are the conditions of the continental allies. Another point of similarity in problem is that the men dealt with under the British training system are Anglo-Saxons, and thus like in general type to our own citizens. In an endeavor to discover at first hand some of the conclusions developed in the training of disabled soldiers in Great Britain, the present writer inaugurated correspondence with the officials of the various educational institutions to which discharged wounded men are assigned for training by the Ministry of Pensions. The original letter, sent out in the fall of 1918, after explaining the purpose of inquiry, asked the following questions:

1. Are the disabled soldiers instructed in the same classes as regular pupils, or have special courses been set up? How do the curricula of such courses compare with those of the regular classes?
2. What has your experience shown regarding the ambition, earnestness, and regularity of attendance of the men?
3. What subjects are you teaching to disabled soldiers and how many are taking or have taken each course?
4. What is the length of each course?

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do,

however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
