

## The Gift of Theology: The Contribution of Kathryn Tanner

Kathryn Tanner is undoubtedly one of the most important contemporary North American theologians. From landmark studies in systematic and constructive theology to economics, Tanners work is a contribution of inestimable value, hallmarked by its depth, precision, provocativeness, and grace. Unifying the immense scope of her work is the particular vision of Gods self-gift: an internal, dynamic, communal reality that is expressed outward in acts of love and generosity that are creation, incarnation, and capacious life in the Spirit. This vision, as the grounding matrix of Tanners theology, has been extended beyond the disciplinary boundaries of theology in constructive explorations of economics, social and political theory, cultural studies, and ethics. This volume celebrates the vision and breadth of Tanners unique contribution. Essays by established scholars, colleagues, and former students trace out the key loci and themes, from theological method, the Trinity, Christology, creation, to economics, environmental and social ethics, and politics, to generate constructive and ecumenical conversation that presents Tanner as an important, contemporary public theologian.
