

Marriage - The Making & Living of it

One of the characteristics of modern life seems to be a breakdown of family life, the foundation of which is a happy and healthy marriage. This has vast implications on individuals and society in terms of hardship, lack of social concern and responsibility and a culture that promotes selfishness and self-satisfaction at all costs. This vicious circle propagates more destruction of marriages and the sad story grows. This short booklet is an attempt to share my learning and understanding of the main issues in a marriage and a look at what it takes to make a marriage a source of great joy and fulfillment in this life. I hope that those who read it will benefit from it and will live happy, productive and satisfactory lives. The book is focused at Muslims but others can also benefit.
