

The Half-Truth High: Breaking the Illusions of the Most Powerful Drug In Life & Business

Did you ever wonder why self-improvement strategies dealing with change and success make things seem so reasonable? Could it be that what makes all these mantras and pop books so appealing on a mass scale is the same thing that keeps them from working. They all make sense. But are all the things that make sense TRUE? Dr. Fleming takes you deep within the mind of a psychologist and leadership consultant, letting you in on the secrets of the half-truth the clever way we convince ourselves we are changing bad habits, leading a company to profitability, or even rising personally to the highest level of thinking about ultimate reality. Utilizing a questioning process that turns half-truths over to find the denied part of reality in us all, Dr. Fleming paves a way to understanding and change that no simple 7 Tips or Tools book could possibly provide.
