

The Invitation

In 1974, a group of teenage Peruvians became part of a fascinating journey through the remote mystical places of Peru. Through the narrative of Sixto Paz Wells, the reader is confronted with one of the most complex cases of ET contact ever documented. A rare case which has astounded journalists, from nearly every country, as they defiantly witnessed the undeniable physical presence of an advanced civilization. The invitation stands as a document so provocative and upsetting to our routine lives, that the authors work has been suppressed by organized agencies trying to destroy it. The question is : Why? Its pages are filled with the messages of hope, renewal and self-actualization. The humility of the authors revelations gives us the powerful tool to understand the great glory of being human. It compels us to share that unique glory with our brothers and sisters from beyond our planet and perhaps beyond time and space as we know it. After THE INVITATION, you will never see the world the same way.
