

How I Almost Killed All My Brothers and Sisters

Nan DeLore is tired of her siblings, which isn't that surprising, since she has nine of them. All she wants is to survive the summer so she can leave home for college and start a new life far away from her annoying family. But just as summer begins, Nan decides that all she really wants is for her siblings to just disappear. Then they do...and suddenly, Nan has to find them all before it's too late.
