

Faith, Theology and Psychoanalysis: The Life and Thought of Harry S. Guntrip

Harry S. Guntrip was best known for his affiliation with two famous psychoanalysts from what is known as the British Independent tradition of psychoanalysis in England: Ronald Fairbairn and Donald Winnicott. This book traces the various influences on the development of his clinical and theological thinking in context of the historical tension between religion and psychoanalysis. The central feature of his development will be demonstrated as a series of polarities, both theoretical and personal, conflicts with which he wrestled theologically, psychologically, and interpersonally on the professional level and in his own personal psychoanalyses. A critical evaluation of the outcome of Guntrips own personal psychoanalyses with Fairbairn and Winnicott will demonstrate the autobiographical nature of his theoretical analysis of schizoid phenomena: a psychological state of self-preoccupation and way of being in the world. - from the Introduction
