

## St.Briavels castle - Part One - The Most Haunted Building in the World

St,Briavels castle The Most Haunted Building in the World. Join Paranormal Author Ross Andrews on a journey around the castle and read about its ghosts and sightings, this building has been a prison, a place of execution, a school, a private home, an arms factory, and also King Johns favourite hunting lodge. The castle has many famous stories but this book contains a lot of up to date stories that have happened int he last ten years. Ross is part of a ghost hunting group that do regular investigations at the castle over the years and a lot of these tales are collected during the investigations, but there is also a large collection of stories from people who stay at the castle that have no idea that it is haunted. Ross claims that most of the stories in the book have happened at least twice to different people for them to be included, otherwise there would be a lot more. The book has floor plans and colour photos throughout to illustrate all the rooms and events that have happened. A superb book, that will sit excellently in your paranormal collection, along with his other titles, Paranormal Cheltenham, Paranormal Oxford, Paranormal Forest of Dean, and also the excellent, The Paranormal Tourists Guide To London.
