The Mystical Presence (1846), John Williamson Nevins magnum opus, was an attempt to combat the sectarianism and subjectivism of nineteenth-century American religion by recovering the robust sacramental and incarnational theology of the Protestant Reformation, enriched with the categories of German idealism. In it, he makes the historical case for the spiritual real presence as the authentic Reformed doctrine of the Eucharist, and explains the theological and philosophical context that render the doctrine intelligible. The 1850 article The Doctrine of the Reformed Church on the Lords Supper represents his response to his arch critic, Charles Hodge of Princeton Seminary, providing what is still considered a definitive historical treatment of Reformed eucharistic theology. Both texts demonstrate Nevins immense erudition and theological creativity, contributing to our understanding not only of Reformed theology, but also of the unique milieu of nineteenth-century American religion. The present critical edition carefully preserves the original text, while providing extensive introductions, annotations, and bibliography to orient the modern reader and facilitate further scholarship. The Mercersburg Theology Study Series is an attempt to make available for the first time--in attractive, readable, and scholarly modern editions--the key writings of the nineteenth-century movement known as the Mercersburg Theology. An ambitious multi-year project, this aims to make an important contribution to the academic community and to the broader reading public, who may at last be properly introduced to this unique blend of American and European, Reformed and Catholic theology. No single book on sacramental thought from nineteenth-century America has attracted more attention in the past half century than The Mystical Presence . . . This new

edition by Linden J. DeBie and W. Bradford Littlejohn clarifies [Nevins] importance by placing his work in its American context, showing his engagement with European theologians, and locating him in his own theological tradition . . . Nevins work will continue to make a mark, and this new edition brings to bear the latest scholarship. -E. Brooks Holifield Emory University Karl Barths commentary on Romans was not the first bomb to fall on the playground of theologians. John Williamson Nevins The Mystical Presence had a similar effect on the nineteenth-century American church. His appeal for a return to the sacramental views of the sixteenth-century Reformed confessions was a voice in the wilderness in an era of decidedly low-church sympathies. This wonderful new edition clearly reveals the relevance of Nevins controversial book in both his day and ours. -Keith A. Mathison Reformation Bible College Author: John Williamson Nevin (1803-1886) was a leading nineteenth-century American theologian. Originally trained in the Presbyterian Church, he took up a teaching post at Mercersburg Seminary of the German Reformed Church in 1841, and spent the rest of his life teaching and writing in that denomination, though his controversial work brought him fame (and infamy) well beyond its borders. Editor: Linden J. DeBie has taught at Seton Hall University and New Brunswick Theological Seminary. He is the author of *Speculative Theology and Common-Sense Religion: Mercersburg and the Conservative Roots of American Religion* (Pickwick, 2008). General Editor: W. Bradford Littlejohn is currently completing a PhD in Theological from the University of Edinburgh. He is the author of *The Mercersburg Theology and the Quest for Reformed Catholicity* (Pickwick, 2009).
