

Its All Nonsense

An Amazon #1 Bestseller for Startups. Written by a 20-year-plus serial entrepreneur after back-to-back major exits, *Its All Nonsense* is designed to help anyone, from any walk of life, find growth, achievement, success, and happiness by doing their own thing. *Its All Nonsense* is 20 mentoring sessions not lessons, rules, or steps. Its 20 insightful and entertaining stories, never boring, heavy-handed, or condescending, all taken from real-world entrepreneurial life, written by someone who is still living it. You cant teach entrepreneurship with classes. You cant find independence with a roadmap. But you can learn from experience. *Its All Nonsense* is jam-packed with just that. *Your Life Is Not Your LinkedIn Profile* Not everything you do has to be classified and categorized. Life doesnt fit neatly into manilla folders or a directory structure. *Want To Win? Learn to Hate Losing* This is what makes solid founders tick. Its not the ignorance to jump off the side of a building. Its the years of training and the hours of safety check before they leap. *Where Are All the Great Startup Mentors?* Every startup community needs a deep bench of mentors and advisors, and it doesnt matter if those mentors and advisors are massive successes, moderate successes, or even failures. *How to Find a Mentor* How do you find the right mentor for you? Im not talking about JUST startup mentoring here, Im talking about success in any discipline. *Do For Yourself Every time* one of our kids asks us for something, we tell them to do it themselves. Why cant this apply to us as well? *Get Out Of the Echo Chamber* Social media marketing is about maintenance. If you really want to create new customers, it takes real work, and it costs time, money, and patience. *Why You Need to Keep It Short* If you want to get your message across, youve got to use the right words and as few of them as possible. *My Life Is 90% Failure*, and

Im NOT Cool With That Look, everything you ever read about entrepreneurship starts and ends with failure. Its necessary. Its part of the process. How to Stay Fit If you want to be in shape, you dont need a program, you have to reprogram. How Negative Are You? Confidence will make you. Overconfidence can sink you. Knowing the difference between the two, well thats a key to success. How To Use Fear To Your Advantage Fear is real. Fear is easy to talk about when youre not experiencing it, but it can be crippling when youre facing it. Not Every Startup Is a Home Run Ive defined a triple as a startup that could potentially be a home run in an alternate universe, but there is a certain point at which the runway will run out. The Art Of Getting Acquired Its time for startups to start seriously taking a look at acquisition as a legitimate exit from day one. Important Lessons From Office Space The reason Office Space is still loved all these years later is that there are a ton of valuable lessons packed into that film. Why My Kids Dont (And Wont) Have a Mobile Phone This isnt a dad decision, its a technical decision. What I Learned from Bloom County Bloom County taught me to stay true to what Im doing despite how it doesnt fit into mainstream cultural acceptance or the machine. Why Im Banning the News What we call news today is driven either by political agenda or the almighty dollar. I Cant Stop Laughing About Ashley Madison Being Hacked Each of those 37 million members gave up control of their privacy in exchange for easy access and, more importantly, the legitimization of their actions. What I Learned from the US Womens World Cup The US Womens National Team did something more than win the World Cup. They captured the attention of the entire nation for a little over 90 minutes. Lets Start Giving Expectation Trophies You want to get rid of participation trophies? Get rid of all trophies. Eventually they all mean the same thing.
