

The Theory of Nothing: The Poverty of Modern Cosmology

Do you know physicists claim that 96% (!!!) of the universe is made up of dark matter and energy that we can't see or even detect? Did you know that scientists now suggest that the matter and energy which preceded the Big Bang could have sprung spontaneously from nothing? If you believe in a Creator God and are troubled by these developments, then this little tract, written by a skeptical lawyer, is for you.
