

Principles And Power Of Wisdom: Keys To Achieving Personal And Corporate Destiny

Principles and Power of Wisdom is both an inspirational book and an imparting book of Wisdom, centrally the wisdom of God. I strongly believe that what the poor man need is not money but wisdom, the poorest man on earth is not the man living below the two dollar bench mark but the man who lacks wisdom. African nations are poor in spite of huge human and natural resources, What Africa needs is not more aids from the UN or the EU both leaders with Wisdom. Americas greatness is not a function of huge resources but a function of past leaders with wisdom. All humans need wisdom to be relevant on earth, this relevance comes not from a paid job, or from a political deed, this relevance comes from the wisdom of finding an area of gifting, deploying the gift in meeting the needs of humanity. Marriages fail not because of a lack of love but because of the absence of wisdom. There are three immutable forces of life that keeps the wealthy wealthy, the happy happy, the married married, the poor becoming rich, the successful remaining significance, they are Wisdom, Faith and Love. All humans must get Wisdom , Faith and Love to fulfill their God given destiny. Wisdom has seven pillars, these pillars are discover-able in this book. The book Principles and Power of wisdom is an all season book recommended for all humans of all races and age group. Nations of the world, leaders, parents, teenagers, the employed, the employer, the skilled and the skilled, because Life Principally has two kinds of people, summed up as THE WISE and the foolish, GET WISDOM IT IS THE PRINCIPAL THING.
