

The Pyramids and the Pentagon: The Governments Top Secret Pursuit of Mystical Relics, Ancient Astronauts, and Lost Civilizations

The Pyramids and the Pentagon is a detailed study of how and why government agencies have, for decades, taken a clandestine and profound interest in numerous archeological, historical, and religious puzzles. Focusing primarily upon the classified work of the U.S. Government, The Pyramids and the Pentagon invites you to take a wild ride into the fog-shrouded past. Nick Redfern's The Pyramids and the Pentagon clearly and provocatively demonstrates that deep and dark conspiracies exist within the shadowy world of officialdom - conspiracies that have the ability to rock the foundations of civilization, religion, and history to their very core. The strange and amazing secrets of the past are just a heavily guarded government vault away.
