

Paper Hearts (Sketchbooks Series Rebirth) (Volume 1)

Sarah had what she considered to be a near-perfect life: her father loved her, she had a twin brother with whom she got along with, a mother she could avoid with relative ease. For sixteen and a half years she lived this life and was happy. Then her father died and everything began to fall apart. When she starts to search through her father's old art studio she discovered that he had hoarded more than one hundred leather-bound sketchbooks, all blank. When she begins to draw in them she soon discovers why they were empty. Approximately 26000 words, recommended for teens age 15 and up
