

## The Spiritual Laws of Prosperity

Most of us know of the Law of Attraction what goes around comes around; what you put out you get back. But even so, centuries of religious and social training (much of it subconscious) have mistaught us that we should put other peoples happiness first. But unless we ourselves are happy, we cannot teach others how to experience joy. The great spiritual laws of this planet all of which are aspects of the Law of Attraction teach that striving for our own happiness is not a selfish inclination; it is not wrong, it is our spiritual duty. Happiness includes financial prosperity and much unhappiness is caused by hating money and those who have it. This book aims to help you understand that money is purely a reflection of our own levels of happiness. If we live a life in-joy-in ourselves our financial issues will dissolve. Then we can help others and the world to live in prosperity, peace and harmony.
