

Methods of Suicide

Methods of Suicide is a dark comedy book that aims to educate and entertain -well, mostly entertain- the reader while analyzing the methods available to those who wish to end their lives. It neither condones nor condemns suicide. Chapters include: - Poisoning! - Cars! - Trains! - Electrocutation! - Seppuku! and many more... Methods of Suicide has been Sascha von Bornheims best-selling book ever since it was first published, and this revised edition, featuring photographs and illustrations, builds on that success.
