

Creation and Evolution

The debate is heating up! Did a loving God create this earth or are we the random product of millions of years of natural selection? Is the Bible teaching of a literal six-day creation viable, given the scientific evidence pointing toward evolution? Or can both theories be successfully blended into one? Take a look at the evidence, prayerfully search your heart, and then draw your own conclusions. The fact is that since no one was there in the beginning, both theories of origin require faith a perfect requirement for the one who wants to know the truth about the beginning . . . and the ending.
