

Who Asked Me?

I cannot remember the time when I was told that I was adopted, it was done so well by my new parents. As I grew older many questions arrived and as I looked at the whole process of adoption and its legalities I asked the unrealistic question who asked me? This collection of poems takes you through my experiences of growing, marrying, having a family of my own and the eventual meeting with my birth family. All the frustrations and searchings that have shaped my life are here!
