

Turning Dead Ends into Doorways: How to Grow through Whatever Life Throws Your Way

For nearly two decades, Staci Boden has been counseling people in transition or crisis. The core of her work involves letting go of the illusion that we can control what happens next in our lives and learning to deal with what is. Whether we like it or not, control is an illusion. God and the universe laugh when we make plans. We can try hard to materialize something—a new job, the perfect body, trust, our dream partner, inner peace—without success. And sometimes life deals unexpected blows: illness, divorce, and death. *Turning Dead Ends Into Doorways* introduces eight teachers to help us navigate the unknown in daily life - fear, awareness, choice, body, intuition, energy, intention and surrender. With compassionate honesty and a practical sense of humor, healing practitioner Staci Boden shows how to interact with each of these teachers to better navigate the ups and downs of daily life. She shows how to let go of the illusion of control with simple practices of guided visualization, discussion and synchronistic events that readers can use to embrace change and transform their lives.
