

Alphabetti Lifetti

I frown at the page of the book Im writing. I really need to do this. There should be a guide to life. Ideally in alphabetical order, for easy reference in an emergency. Books have all the answers, dont they? With a smile, I add another line. A is for Alphabetti Lifetti! The title of my book. Everything sounds cooler in Italian. Elle, put that light out! Well, every girl has her problems, and believe it or not, parents are the least of mine. In fact , my life was full of chocolate and chat, normal girlfriend stuff, until two new arrivals at school brought a whole bundle of problems that threw me and my friends into a full on emergency. Catastrophe does not begin to describe it. Who could imagine that boys could be so complicated? Chocolate is much simpler but you cant live on chocolate forever, believe me. Until now I thought secrets were for sharing, like surprise birthday parties, I didnt know that they could split your world wide open. So this book is a survival guide. I hope it helps.
