

## Whispers from the Hills: A Mountaineers Journal

Whispers from the Hills is a collection of three essays, thirty nine poems and three Haiku. The three essays vividly depict the life of a young boy growing up in Fairlea, West Virginia in late 1949 and the early 1950s. The poems have something for everyone from the very young to the senior citizen. The Humorous section will have you rolling in the aisles as the author pokes fun at the ordinary things of life. The Contemplative section will make you think and perhaps see things from a different perspective. The Love section will transport you into a realm to which everyone should go at some time in their life. Once there, you might never want to leave.
