

The Jam Boy Chronicles

Golf writing is stuck. Do you ever lose focus when you're reading about golf, feeling like you're seeing the same articles, over and over? Do you get bored easily and find it difficult to finish an article once you've started it? I know I do, and that really bothers me. Despite my obsession with golf and my respect for the talented writers who cover it, I can't seem to focus and enjoy most of what I read anymore. On the one hand, I hate to say anything bad about golf writing because journalists work hard to bring fanatics like you and me our daily ration. But on the other hand, I can only take so much of the same before I snap. The fact that so many different writers use the same style and tone despite the infinite variety inherent in golf has driven me to the point of insanity. To fight this predictability and refresh golf journalism, I followed the PGA Tour in 2010 and published professionally edited e-books on each event. I have provided the complete collection here. After sleeping in my car, eating canned meals, battling traffic, and begging for freelance assignments, I can honestly say that I had an unforgettable experience, even though I was unable to continue after The Players Championship. I'm in the process of composing a book on the whole experience, which covers more of what happened off of the course and on the road than what you will read here. But in the meantime, winter is upon many golfers and now is a great time to get pumped about next season. My hope is that this collection will whittle away at the hours between you and your next round of golf. Thanks so much for reading. Cheers, Tom Collins
